

Intrinsically safe camera type KAI*** - ET

Certyficate OBAC 18 ATEX 0439X

Intrinsically safe camera type KAI*** - ET is intended for use in monitoring systems based on the TCP / IP protocol. Meets the requirements for devices of group I category M1, group II category 1G and 1D.

KAI***- ET

KAI	Intrinsically safe camera
*	1 - Optical vision signal (output SC) i Network interface RJ-45 2 - Optical vision signal (output SC) 3 - Network interface RJ-45
*	O - infrared illuminator IR, no marking - no illuminator
*	N - focal length adjustment - adjustable Z – remote focus adjustment no mark - no focal length (angle of view) adjustment
ET	Company product „ELTECH”

Supply voltage	Un = 12VDC ±10%
Standard	IP color camera
Network interface	RJ-45 10/100Base – TX
Optical vision signal	Standard - 100BASE – FX Transmission range - up to 20km
Level of security	IP65
Ambient temperature	-20°C < Ta < +60°C
Camera weight	~ 8kg
Dimensions	340x124x124 (mm)
